

THE DAY'S FOREMO

## ST NEWS

**MAPPED AND SYMBOLIZED**

Revised and recast after midnight in the light of the latest press dispatches received by The Times

**THE SYMBOLS, REVISED LIST, WITH THEIR RESPECTIVE MEANINGS, SHOWN BY THE KEY**

1. Troops marching to the front.	6. Evacuation.	11. "Let slip the dogs of war."	16. Railroad accident.
2. Ship in distress.	7. Volcano in eruption.	12. Burglary and robbery.	17. Fatal automobile accident.
3. Burning building.	8. Forest fire.	13. Storm, snow, flood.	18. Airplane accident.
4. Land battle.	9. Assassination—massacre.	14. Pestilence and starvation.	19. Drove of fumes.
5. Earthquake.	10. Strike—riot—street fight.	15. Sea fight.	20. Strange—startling.

NOTES—(1) This New Map of the World is designed merely as an aid to the busy reader, helping him to readily derive a body of new, very valuable, to length, to time, and easily comprehended, by his own observation, reader. (2) The symbols on the face of the map will instantly show to the reader the nature of the day's very foremost happenings. (3) The position of any particular symbol on the map is intended to indicate only approximately the spot where the news event took place. (4) The symbols are arranged in the Key in the order in which they appear in the map. (5) In order to quickly take in the plan, look first at the symbol on the face of the map, then at the corresponding symbol in the margin, then in the Key and the corresponding number on the face of the map. All "in the twinkling of an eye." (6) See also the News Summary.

Copyright applied for by The Times-Mirror Co., Los Angeles, October, 1911.

## KRUTTSCHNITT IS CHAIRMAN.

Is Elected Head of the Espee Directors.

Joint Officers in Union Pacific Resign.

Step to Carry Out Decree of Dissolution.

NEW YORK, Jan. 13.—Changes in the directorate of the Southern Pacific Railroad Company are believed to have been the direct outcome of the conference last week between Atty.-Gen. Wickham, representative of the Harriman interests, and members of the Southern Pacific Protective Committee.

It is understood that Mr. Wickham told R. S. Lovett, chairman of the board of directors of the Southern Pacific, and other members of the board that he would consent to no dissolution plan until the Southern Pacific board was relieved of men who held similar positions on the Union Pacific board. Although some of the new Southern Pacific directors have held intimate relations with the Harriman interests, it is assumed that the changes in the Southern Pacific board will be satisfactory to the Department of Justice.

### FIGHT ON CENTRAL PACIFIC.

It is acknowledged frankly that the plan to separate the Southern and Union Pacific systems now centers around the ownership of the Central Pacific road. Union Pacific officials make no secret that every step now has for its object the acquisition of Central Pacific. They declare the result hinges largely on the price to be paid for the property. It is intimated in authoritative quarters that Mr. Wickham will offer no objection to the acquisition of Central Pacific by the Union Pacific, if it can be accomplished without the aid of the Southern Pacific stock now owned by Union Pacific. Wall Street, however, believes that a considerable part of the Southern Pacific majority will refuse to relinquish control of the Central Pacific, except by legal decree.

### OBSTACLES BEING OVERCOME.

James N. Wallace, chairman of the Southern Pacific Protective Committee, declared today that some of the more serious obstacles to the severance of the Harriman lines were being overcome. This opinion was shared by attorneys representing the Union Pacific road.

Selection of Julius Kruttschnitt as chairman of the Southern Pacific board excited no surprise, as he has served the greater part of his tenure to that property and has under way a comprehensive plan for further upbuilding.

Directors and officers of the Union Pacific Railroad who were also directors of the Southern Pacific first resigned their resignations as the first step in compliance with the decree of the Supreme Court dissolving the two roads. Inversely, directors of the Southern Pacific also connected with the Union Pacific resigned.

Julius Kruttschnitt resigned as director of maintenance and operations of the Union Pacific and was elected chairman of the board of the Southern Pacific, succeeding R. S. Lovett, resigned.

Judge Lovett, Mortimer L. Schiff and Frank A. Vanderlip also resigned from the Southern Pacific Executive Committee and were succeeded by Richard C. Gould, James N. Wallace and E. F. Swenson.

From the Southern Pacific board of directors in addition to Judge Lovett, the following resigned:

Otto F. Kahn, Charles A. Peabody, E. L. Schiff, Frank A. Vanderlip, W. Goettl, L. J. Spence (vice-president) and Marvin Huggitt. In their stead the following were chosen:

James N. Wallace, Horace Harding, W. P. Bliss, C. N. Bliss, G. H. Leighton, J. N. Jarvis, C. H. Kelsey and E. F. Swenson.

### DUNNE OBJECTS TO HOLD UP.

Governor-Elect of Illinois Refuses to Pay Thirty-five Cents for Coffee in Chicago.

CHICAGO, Jan. 13.—Governor-elect Dunne of Illinois thinks that thirty-five cents a cup is too much to pay for coffee. The Governor-elect and Col. James Hamilton Lewis, Democratic candidate for Senator, returned from Springfield yesterday morning and entered a fashionable hotel for breakfast. Mr. Dunne started to order the meal when his eye reached the item:

"Coffee, 35 cents a cup" on the menu. The Governor-elect arose from the table and asked for his hat and coat.

"Where are you going?" inquired Col. Lewis.

"Going where I can get coffee for ten cents," replied Mr. Dunne. "Thirty-five cents is too much for any one to pay for coffee."

### SCHURMAN'S FILIPINO PLEA.

First Commissioner to the Philippines Advocates Independent Government for the Islands.

BOSTON, Jan. 13.—Justice, honor, and true Americanism combined with national self-interest and expediency persuaded that we should permit the Philippines to govern themselves and to set up within the next few years an independent and sovereign Philippine republic.

This statement was contained in a letter from Jacob Gould Schurman, first commissioner of the Philippine Islands, read at the annual meeting of the Anti-Imperial League here today.

Addresses were delivered by Lieut.-Gen. Nelson A. Miles and Manuel L. Quezon, resident commissioner of the Philippines.

His Liberty Short Lived.

JOLIET (Ill.) Jan. 13.—[By A. P. M.] Stephen Ayers, one of three prisoners who escaped Saturday in a prison automobile from the State penitentiary, was caught today at Joliet, Ill., by the town marshal.

## RHEUMATISM CANNOT EXIST.

In the human body if you will use Trunk's Prescription for Rheumatism and Gout, it is ridiculous, absurd and preposterous; in fact, it is a pity and a shame to talk about rheumatism and gout, much less suffer with it, either inflammatory, muscular, sciatic or any other form of Rheumatism.

Trunk's Prescription for Rheumatism and Gout sells for \$1.50, or six for \$7.50. This Prescription does not ruin the stomach, it does not depress the heart. Eat all the meat and good food you wish while taking Trunk's Prescription. It does not contain any Mercury. Salicylate of soda, Oil of Wintergreen or narcotic of any kind, but it absolutely and positively overcomes any kind of Rheumatism and Gout on earth. What more do you want? There is nothing just as good, and it is impossible to get something better. It is also an excellent Liver Medicine. For sale at all drug stores.

Western Wholesale Drug Co. Distributors.

### Happines.

## ANGELENO WINS FUR VENDOR.

WILL COME HOME WITH A HANDSOME BRIDE.

Romance of Harry S. Bengtson Begins in a Store Where He Entered to Buy Apparel to Keep His Children Warm in Midwinter in New York City.

(BY DIRECT WIRE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, Jan. 13.—[Special Dispatch.] An interesting romance is revealed in the announcement of the engagement of Harry S. Bengtson, of Los Angeles, Cal., to Miss Minnie Weiss, of No. 215 Burnside avenue, Bronx.

Miss Weiss, who is 26 years old and strikingly good looking, was employed until a few weeks ago in the fur department of Macy's store, and it was when helping Mr. Bengtson, who is a widower with two small children, in the selection of furs for the youngsters that an acquaintance began.

Mr. Bengtson asked and was introduced at the young woman's home, and since then they have become engaged to marry.

Arriving here on October 5 on his way to Boston to see his sister, Mr. Bengtson upon communication with his sister's home found that she had gone abroad, but was then on her return voyage and would arrive in New York within a few days. He decided to wait and meet her at the pier, and having plenty of time to spare went on a shopping tour. Just how he became acquainted with Miss Weiss is best told by her.

"Mr. Bengtson wanted to buy some fur for his fur, said Miss Weiss, 'but he had no idea of just what sort were suitable for a little girl of 8 years. He was awfully nice in his manner and I liked him at once, and as I liked him I said that he could have decided on what he wanted for his little girl he asked me if he might come up to my house to see me, and as I liked him I said that he could.'"

"After that Mr. Bengtson escorted me home every night until it was decided that I had better leave the store. That was, of course," Miss Weiss added, "after we had decided that we were to be married."

Asked if she would go to Los Angeles to live, Miss Weiss said the arrangements have been decided upon which will take them to Los Angeles immediately after the wedding.

"Mr. Bengtson has decided upon plans for a new home, which is to be completed by the time we are married," said Miss Weiss, "and we are to live in the midst of garden country in a fine new house that is built just for us."

### FATE OF A SAMARITAN.

Captain of the Uranium Says His Ship Hit Land in Effort to Succor Another Vessel.

HALIFAX (N. S.) Jan. 13.—So firm and fast is the steamer Uranium on the rocks near Chubucto Head, where she struck yesterday's fog, that no amount of strain by a fleet of tugs pulled her a foot toward liberty this afternoon. After three ineffectual attempts to float her, one of which threatened to land the tug Scotsman on the ledge beside her, Capt. Eustace decided he would have to lighten the ship.

Of the 850 passengers who were transhipped to rescue craft, many left for their destinations today. Six hundred and forty-three, after being examined by United States immigration service inspectors, expected to leave tonight for New York.

It was while playing Good Samaritan of the seas that the Uranium came to grief, Capt. Eustace said today.

Bound from Rotterdam to New York, she turned out on her course on January 9 to answer a wireless call for help from the steamer Carthaginian. The message said that fire was raging aboard and that it was beyond control. For three days the Uranium groped through the fog trying to find and succor the burning vessel;

# Coffee "Over-Exercises" the Heart

Normal exercise is healthful.

Over-exercise is harmful.

Exercise, up to a certain degree, increases the pulse-rate, causing ample flow of nourishing blood to all the body organs.

That is normal exercise.

Physicians and Physical Trainers know this.

Over-exercise urges the Heart to excessive action—flooding the body organs with blood. The after-effect is stagnation and decomposition in the tissues—as in the lowlands after a Spring freshet; and toxins (poisons) abound.

These toxins are reabsorbed into the blood stream, and, passing through the Heart, poison that organ with the rest.

Over-exercise also causes strain.

Architects know what "strain" means in buildings and in bridges, just as Doctors and Trainers know it in the Human Structure.

When "strain" passes a certain limit, the structure begins to weaken—slowly dis-organize. So with the Heart.

It can stand so much "strain"—more or less, in different persons. Beyond the individual limit—look out!

When the Heart is compelled to over-exercise and convey a blood-stream filled with toxins—it is serious, in the extreme.

Coffee causes OVER-exercise of the Heart through the "whip" it contains in the form of the drug, *caffeine*.

This drug increases the Heart's action—even while the

Postum Cereal Co., Ltd.,

## COFFEE HEART

Very Plain in Some People.

A great many people go on suffering from annoying ailments for a long time before they can get their own consent to give up the indulgence from which their trouble arises.

A gentleman in Brooklyn describes his experience as follows:

"I became satisfied some months ago that I owed the palpitation of the heart, from which I suffered almost daily, to the use of coffee (I had been a coffee drinker for 30 years.)

"I realized that I must give up the harmful indulgence in coffee, but I felt the necessity for a hot table drink, and as tea is not to my liking, I was at a loss for awhile what to do.

"One day I ran across a very sensible and straightforward presentation of the claims of Postum, and was so impressed thereby that I concluded to give it a trial, and I have used it ever since.

"The effect on my health has been most salutary. The heart palpitation from which I used to suffer so much, particularly after breakfast, is gone, and I never have a return of it except when I dine or lunch away from home and drink coffee, because Postum is not served. I find that Postum cheers and invigorates while it produces no harmful stimulation."

"There's a reason," and it is explained in the little book, "The Road to Wellville," in packages.

Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

individual is at rest. The habitual use of coffee, more times daily, forces the Heart to over-exercise.

This produces what Life Insurance Examiners and Physical Trainers term "Coffee Heart."

If you have "Coffee Heart" you can't get life insurance and you can't "go in for athletics"—not much.

But—thousands of former "Coffee Hearts" now regularly, supplying the body organs with pure blood in normal amount; are insured and enjoy life.

They have wisely quit coffee entirely and now drink wholesome, famous food-drink,

## POSTUM

Made of clean, hard wheat, Postum contains no sugar or any other harmful substance.

It does not scourge; it nourishes. It does not over-exercise of the Heart; it supplies nutrition to the organ and to the blood-stream which feeds and purifies the whole body.

"There's a Reason"

Postum now comes in New Form called

## INSTANT POSTUM

It is regular Postum in a concentrated form, nothing added. Place a level teaspoonful in a cup, pour on boiling water, stir, add sugar and cream to taste, and it is ready to use.

No bother—flavor always the same—delicious. Sold by Grocers everywhere.

45 to 50-cup tin, 30c—90 to 100-cup tin, 50c.

Pure Food Factories,

Battle Creek, Michigan

then the Carthaginian sent word by wireless that the fire was subdued. The Uranium retraced her track, and in a dense fog crashed into Chubucto Head light.

### PUR BOUNTY ON BABIES.

Parents of Children Born in England Entitled to Thirty Shillings Under New Insurance Act.

(BY CABLE AND A. P. TO THE TIMES.)

LONDON, Jan. 13.—Beginning today every child born in the United Kingdom to parents insured under the new national insurance act will bring the parents a bounty of 30 shillings, or about \$7.50. Under the new act, the mother is also entitled to sickness benefit during the period of her illness.

There are about 1,200,000 births annually in the United Kingdom, and it is estimated that fully 1,000,000 of these will be entitled to the insurance benefit. One effect of the scheme is expected to be an improvement in the national physique, which is said to have suffered considerably because so many mothers are denied necessary rest and are sometimes obliged to resume work before fully recovered.

TO WELCOME SUFFRAGETTES. PARLIAMENT REMOVES BAN.

(BY CABLE AND A. P. TO THE TIMES.)

LONDON, Jan. 13.—The British government reversed today its ban placed on the reception of deputations of suffragettes and agreed to welcome in the House of Commons a body of working women and representatives of the women's social and political union next week. Premier Asquith accepted David Lloyd George to receive the women.

SING THE "MARSEILLAISE."

"Garment Strikers of New York on Parade Carry the Banners With 'Votes for Women' Slogan."

(BY FEDERAL (WIRELESS) LINE TO THE TIMES.)

NEW YORK BUREAU OF THE TIMES, Jan. 13.—[Special Dispatch.] Fifty thousand men, women and children marched, cheered and sang the "Marseillaise" today in one of the greatest strike demonstrations ever witnessed in this city. It was the protest of the striking garment workers against conditions under which they work.

More than 200 police along the line of march prevented disorder. At Union Square, where the parade disbanded and the strikers gathered to listen to speeches by Mrs. Rose Pastor Stokes, Ephraim Kaufman, General Organizer of the Cutters Union; William Karlin, a well known socialist; Benjamin Schwartz, Organizer of the Garment Workers and other prominent labor leaders, the crowd was so dense that the police had their hands full.

Hundreds of banners swung high over the paraders, many of them bearing "votes for women" slogans.

An Electrically Operated Typewriter—  
Adding Machine in Combination—  
Will Revolutionize Present Machines  
& Show Enormous Dividend Earnings

Writes, Adds, Subtracts, Tabulates, and Is Electrically  
Operated by the Lightest Touch on Keys—No More  
Tired Fingers.

This Is the Complete Typewriter

Inventors have been working on improvements for years, but it has remained for one man, M. C. Crawley, an engineer of national fame, to finally perfect the typewriter and combine with it an in-built practical adding machine. TWO MACHINES IN ONE CASE—electrically driven. The Addograph is about the same size as the present typewriter and operated the same way except that in the Addograph THE TROUBLESOME ESCAPEMENT IS OMITTED. The carriage is manipulated entirely by the electric power, through simple and positive mechanism, every stroke the same power.

Although it has adding, subtracting and tabulating features, it has less parts than the average typewriter. Simpler, stronger, better all through. The new perfect machines are now ready for manufacture.

**Make 50% Profit in 6 Days**  
**Stock Goes to \$1.50 Saturday Next**

You are now exactly where men were years ago when the first typewriter, or the first cash register, or the Linotype machine, or Burrough's adding machine was ready for manufacture, and these companies asked for help. Vast fortunes have been made in these machines.

From Moody's Manual, recognized authority on investment earnings, we submit the following:

**How \$100 Grew When Invested in the Beginning**

Burrough's adding machine for each \$100 invested—\$41,349.99. Merchants' Linotype—\$100—has grown to \$25,000. The national Cash Register—\$100 to \$42,700.00. Underwood typewriter—\$100 to \$38,300.33.

THE ADDOGRAPH should equal the earning power of adding machine and typewriter combined—or \$100 invested today in the Addograph should earn \$80,000.00 when the machines are in world use, as they will be, for they do all the machines separately. It will do—do it better, faster, less wear, and at a cost much less than for both machines separately.

All we ask is the privilege of SHOWING OUR MACHINE IN OPERATION.

**Shares Now \$1—Price Goes to \$1.50 Saturday, January 18th, at Midnight**

You are face to face with the opportunity of the century to make an enormous fortune—if you will put some money in the stock.

Circumstances in connection with the apparent murder last July of Joseph La Pointe, Los Angeles theatrical man known as one of the "Three Odettes," whose skeleton was found on the desert near Temecula, last month, led to the arrest here yesterday after three weeks search by Detective Boyd and Jones of E. F. Pettibone, 60 years old, a prosperous typical of the days of '49, and physically one of the most extraordinary characters ever picked up in this city.

E. F. Pettibone, arrested in this city yesterday for the Sheriff of Riverside county. He is wanted there on a serious charge in connection with the death of Joseph La Pointe, whose skeleton was found on the desert. Pettibone denies any knowledge of the tragedy.

EXPRESS SERVICE TO BE LIKE THE PARCELS POST.

BY THE establishment of fourteen branch offices in outlying parts of the city and traffic arrangements with the Pacific Electric, Wells-Fargo and Company will offer morning and evening wagon service in all parts of the city on and after February 1. Under the new system packages originating outside the city or intended for outside delivery will be handled without wagon charge.

Under the present system no packages are delivered or collected free outside a district bounded by Adams street, Vermont avenue, Sunset boulevard and Avenue Twenty-eight, the charge there being 10 to 15 cents on small packages and 25 to 40 cents on large packages. Furthermore where single daily delivery is now offered in this outside district, after February 1, two, and in some cases, three deliveries will be made daily.

MAKE A NEW OFFER TO BUY AQUEDUCT POWER.

Three Corporations Send Offer to Council of Three-quarters of Million Yearly for Such Power as City Can Develop—Objection to First Proposition Said to Be Eliminated—Details of Plan.

A NEW phase was given the question of the city selling to the power companies the power to be derived from the aqueduct power project yesterday, when the Southern California Edison Company, the Pacific Light and Power Corporation and the Los Angeles Gas and Electric Corporation filed a new offer with the City Clerk.

This offer is to take such power as the city can produce under the aqueduct project, and to pay therefor at the rate of sixty-five one-hundredths of a cent per kilowatt hour, meter measurement.

A strong objection made to the previous offer of the power companies was that it would be necessary to enlarge the city's system to meet the requirements. The new offer eliminates this. Under it the city would receive a payment of approximately \$750,000 a year from the power companies.

The offer, which is signed by the presidents or vice-presidents of the

to Start New Well.Northern Company May Get  
Larger Holdings.

New wells have of late become the order of the day in La Habra Valley and with this stimulus, activity is visible in ever-increasing proportions. The Walker-Brand well, on which interest has centered for some time, was put on the pump Sunday, the flow being estimated at about 250 to 300 barrels per day. It came in last Friday.

The Walker-Brand operates on a lease directly south of the Doresey Oil Company which recently brought in a producer of about 250 to 300 barrels. The Doresey has just started drilling on No. 2. Both the Doresey and Walker-Brand are near the Union and the Amalgamated holdings, but have obtained oil of about 14 gravity, whereas some of the production in the field runs 24 degrees and higher.

On its Ninno lease, which adjoins the Walker-Brand holding, the Petroleum Company has gotten material on the ground for a new well. The company has not drilled on this lease as yet, but has two wells producing on another holding, which do together about 1000 barrels a day of 24 gravity oil. No. 3 has just been cemented at 274 feet and after in carrying on work or so will be drilled in. The company started No. 3 only about two months ago, using rotary, and has made very rapid time. It is intended to bring the well in with this drill.

The Kern River Oilfields Limited has twenty-seven acres just east of the Doresey Oil Company, is expected to start operations soon, and will probably take over more property in the field.

**Spreading Out.**  
The Kern River Oilfields Limited has during the last few months been enlarging the scope of its operations materially. The company, in which English capital is largely interested, has in the past concentrated its activities in the Kern River field. It is understood that a large tract has been accumulating in the treasury because of the returns derived from these operations, and that it has been decided to use this in carrying on more extensive development.

The company has just taken over 100 acres at Midway, the transaction calling for the payment of \$100,000 and a 10% royalty. Recently property in the vicinity of Fugler's Point, in the Santa Maria field, was also acquired, beside the holding in Fullerton.

**Directors Meet.**  
The directors of the Central Oil Company held their annual meeting yesterday at Whittier, where the main offices of the company are located. The stockholders' annual meeting is to take place February 15.

The Central has finished well 57, and expects to bring it in tomorrow. No. 58 is drilling in the oil sand, and No. 59, which is a third of a mile from present operations, is down 2500 feet and has had showings since about 1000 feet.

**Not Local United.**  
In connection with the indictment of six officials of the Seaboard Oil and Transit Company, a rumor has started that the United Oil Company of California was the concern to which it is asserted the Mexican property—acquired by the vice-president of the Seaboard—was turned over by the Vera Cruz Oil Company. It is denied that the United Oil Company, having offices in this city and property in the Midway district, had anything to do with the transaction. The company referred to is said to be the United Oil Company of Mexico.

**Field Notes.**  
The Buick Oil Company, which has been having some difficulty in getting the new No. 5 well on production, is expected to have it on the pump in a day or so. Considerable trouble was had in cleaning out the hole, and after the completion of this operation, the company started in to pump the well through a three-inch pipe. It would not pump satisfactorily, however, and upon examination it was found that the pipe was split in one of the joints. This defect is remedied. Well No. 4 has increased its production to about 150 barrels a day.

The Pacific Crude Oil Company was the latest reporter getting about 100 barrels per day from its No. 1 well. It is believed that considerable water is obtained but nothing definite can be learned in the reports.

After having first planned to abandon well No. 3, the Midway Northern Oil Company has decided to give it a final test at about 1540 feet, where in the process of drilling a considerable showing was encountered. The oil pressure has been very strong in the well, and seems to indicate that it still has possibilities. The well was drilled below 2040 feet. The hole is plugged up to the point at which it is proposed to make the test. The company expects to start in No. 4 in a few days.

The Standard Oil Company is preparing to cement Emergency well No. 3 near the Murphy Oil Company's operations in Coyote Hills, Fullerton field. This well has already been completed several times, but considerable difficulty is experienced in shutting off the water in this section. This was evidenced by the struggle which the Murphy had for several years to accomplish this same result in its wells.

The Murphy Oil Company is drilling wells Nos. 4 and 7 in Coyote Hills.

**PORCELAIN DEPOSIT.**  
VIRALIA, Jan. 12.—Several hundred acres of land underlain with deposits, situated in the Lemon Cove district, have been acquired by the Richmond porcelain company. Agents of the concern say that the rock found in the Tulare county foothills is of an especially fine grade and the corporation has acquired large deposits of the same variety of rock in the Tulare River and Springville districts. About \$100,000 worth of porcelain are to be furnished by the Richmond company to one large Coast concern, making necessary the addition of eleven kilns. The entire output of the big concern will be from kilns taken from Tulare foothills.

## FRIENDS MOURN AT DEATH.

Last Sad Rites Over Remains of  
Los Angeles Citizen and World-  
Famous Manufacturer.

A large concourse of mourning friends filled the handsome Adams-street residence of the late Homer Laughlin, yesterday afternoon, to pay their last respects to his memory. The service was conducted by Dr. Charles Edward Locke, pastor of the First Methodist Church, who spoke tenderly of the life, character and accomplishments of the deceased, following his career through the Civil War and on down through his business life as a world-famous manufacturer of pottery. The floral tributes were magnificent and in lavish profusion, having been taken to Inglewood Cemetery in an immense motor-truck, where the ceremony of placing the remains in the family vault were conducted in private, only the immediate friends and the pallbearers accompanying the remains thither. The heavy bronze casket was covered with many of magnificent Oeant red roses. At the hour of the service, corresponding in time to the funeral of the late John D. Rockefeller, with which Laughlin had not been connected for more than five years, closed its doors, in tribute to the man who had made the pottery business life as a world-famous manufacturer of pottery. The floral tributes were magnificent and in lavish profusion, having been taken to Inglewood Cemetery in an immense motor-truck, where the ceremony of placing the remains in the family vault were conducted in private, only the immediate friends and the pallbearers accompanying the remains thither. The heavy bronze casket was covered with many of magnificent Oeant red roses. At the hour of the service, corresponding in time to the funeral of the late John D. Rockefeller, with which Laughlin had not been connected for more than five years, closed its doors, in tribute to the man who had made the pottery business life as a world-famous manufacturer of pottery.

Dr. Locke spoke in part as follows: "We are here today to place a cluster of good memories upon the bier of a good and faithful man. I do this not only for myself, but in memory of the close friendship which existed between my sainted father and our deceased friend. The striking characteristics of the late Homer Laughlin were his high and holy Christian ideals of his parents. He was faithful as a husband and father to his happy, hospitable home, to the wife and children. He was faithful as a business man to the responsibilities as a leader among men. He was faithful as a citizen and friend, and had a heart which beat in true sympathy for humanity about him."

"There is a charming oriental story that a most skillful worker in porcelain became so disheartened with the product of his toil that he one day in despair threw himself into the hot furnace where some vases which he had made were being fired. When those vases were taken out of the kiln, they were the most exquisite ever produced. A masterpiece is a work in which a master puts the most of himself. With our good friend Mr. Laughlin, we too, are working with a precious porcelain of human clay. If we like him, wish to produce a masterpiece, we must invest all of ourselves in our happy labors."

**Double-Quick.**  
**CHILDREN SAVED  
BY FIRE DRILL.**

**COOL PRINCIPAL FIGHTS WITH  
FLAMES IN BASEMENT.**

**Alarm Empires School While  
Teacher Flies the Garden Hose.  
Women's Way of Handling  
Youngsters Wins Commendation.  
Firemen Extinguish Blaze.**

The lives of between 500 and 600 children and more than a score of teachers were endangered for a few minutes yesterday morning when fire was discovered in the basement of the Soutous-street schoolhouse at Soutous and Pine streets. A public and possible loss of life was averted by cool headiness in the part of the principal and two of his female assistants.

The boys and girls had just been marched into their respective rooms and the teachers had begun the lessons of the morning, when the fire drill alarm sounded throughout the building.

In just forty-one seconds the schoolhouse had been emptied of every pupil and almost all the teachers. In an orderly manner did the children, captained by their teachers, march in double-quick time from the building. They thought it was an ordinary fire drill. It was not until they had reached the sidewalks and the playgrounds that they learned that their building was actually on fire. In the interim R. A. Thompson, the principal, was in the basement fighting the flames with a garden hose. Through the basement windows rolled clouds of black smoke.

While children and teachers stood spell-bound looking at the smoke, the seriousness of the situation not yet having dawned upon any of them, the clanging of gongs announced the coming of the fire department. Ten minutes later the fire had been extinguished and the boys and girls were marched back into their respective rooms to continue their interrupted studies and recitations.

The fire was discovered by Miss Clara Clark, an attaché of Thompson's office. Smoke curling up through cracks in the floor was her first warning of danger. She immediately notified Miss E. C. Tubb, in charge of the library, who called upon the fire department, and then notified Thompson.

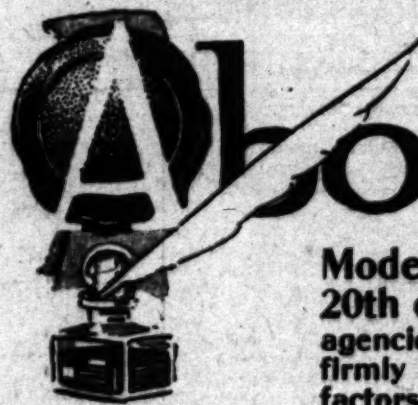

After counseling the women not to raise an outcry, but to quietly sound the fire drill, the principal rushed into the basement, located the seat of the fire and attempted to extinguish the flames with a garden hose. He had them well under control when the department arrived.

In fighting the fire Thompson sustained a few blisters on his hands and ruined a suit of clothes. The flames did about \$20 damage to the building.

**THREE FOR ONE.**

The testimony in a three-cornered fight for the possession of 220 acres near Bravio was heard by Register Buren and Receiver Robinson of the local land office yesterday. Emma B. Arnold was the assignee of the original entryman, R. Frank Tinsley, and his right to the property was contested by Bannibel R. Welch. Now comes Lulu May Colvin, who contests the right of either Welch or Arnold to the land on the ground that the alleged contest between the last-named two was for the purpose of protecting the entry from attack by a bona-fide contestant and to prevent the disclosure of the fraudulent character of the entry.

**COSTA RICAN CONSUL.**  
Collector Pendleton was notified yesterday that the Department of State has recognized Carlos Enrique Roberts as Consul of Costa Rica at this port. But little is known here of the new official.

**BUSINESS OF BOTH CORPORATE  
AND INDIVIDUAL NATURE HAS ASSUMED SUCH  
PROPORTIONS AND RELATIONS THAT IT HAS BEEN  
FOUND IN MANY WAYS NECESSARY TO DEPU-  
TIZE CERTAIN POWERS AND DUTIES TO POSI-  
TIVELY RESPONSIBLE AND ABSOLUTELY IMPAR-  
TIAL THIRD PARTIES.**

**NOT SO MANY YEARS AGO THE  
"friend of the family," some relative, a  
partner, and in some cases the pastor, the  
doctor, or the lawyer, was called upon to  
render such service as was at various  
times required to be entrusted into some  
third party's hands.**

**TWENTIETH CENTURY EVOLU-  
tion has called into existence the trust  
company, and from that again has been  
evolved what has been very properly  
called "the highest form of business"—  
the Trust Department of an indisputably  
strong banking institution.**

**JUST SUCH IS THE TRUST DE-  
partment of the SECURITY TRUST &  
SAVINGS BANK, the Oldest and  
Largest Savings Bank in the Southwest,  
with resources of over \$47,500,000—  
capital and reserve of \$3,400,000.**

**THE TRUST DEPARTMENT OF  
THE SECURITY TRUST & SAVINGS  
BANK, where designated as executor or  
trustee of an estate, makes no charge for  
the preparation of your Will, placing at  
your disposal the experienced judg-  
ment of its Counsel and entire staff of  
the Department. In such cases, we also  
deposit the Will in our fire-and-burglar-  
proof vault without charge therefor.**

**THE MAKING OF YOUR WILL IS  
an important step—a step which should  
by all means be undertaken while you are  
in the best of health, of even temper, and  
in thorough control of your affairs and  
your abilities.**

**IT IS QUITE POSSIBLE THAT IF  
an individual of extended business expe-  
rience made a specialty of the administra-  
tion of trusteeships he might in time at-  
tain a degree of administrative efficiency,  
but even then he could not have the per-  
fect judgment that is combined in the  
group of experienced officers and compe-  
tent Board of Directors who govern  
every act of the Trust Department of this  
Bank. However, the individual is usually  
selected because of friendship existing  
between him and the testator and because  
of the confidence reposed in him on ac-  
count of the ability he has shown in the  
management of his own affairs.**

**THESE INDIVIDUALS HAVE  
usually built up their own successes by  
close attention to the affairs they were  
conducting and are as a rule entirely too  
much occupied with the rush of their own  
business to be in position to give the ad-  
ministration of the affairs of another the  
same careful deliberation and the same  
measure of experience they can apply to  
their own affairs.**

**NO MATTER HOW GOOD A  
friend he may be, the life of a big financier**

or important man of business is too full  
—if not too uncertain—to permit him to  
do justice to philanthropic trusts, and the  
fees allowed for the administration of a  
Will are too small to be in any way at-  
tractive to such a man.

**THE TRUST DEPARTMENT OF  
THE SECURITY TRUST & SAVINGS  
BANK, on account of its financial  
strength, may render an estate many es-  
pecially important services. A note-  
worthy feature is its ability to preserve  
the property in question, especially where  
its debts are large and pressing. It may  
develop that your estate shall consist of  
equities or of mortgaged properties re-  
quiring the outlay of large sums of money  
for their preservation or to prevent the  
sacrifice of the estate by sale at the time  
of a declining market. Cash cannot easily  
be secured from Banks or individuals un-  
familiar with the exact condition of an  
estate or possibly uncertain as to the  
honesty or fidelity of an individual ex-  
ecutor. An estate controlled by this  
Trust Department will find cash ad-  
vances more readily obtainable and in  
that way sacrifices may be avoided.**

**SO, THE LARGE CASH RE-  
sources of THE SECURITY  
TRUST & SAVINGS BANK may be an  
aid to the Trust Department in protecting  
an otherwise practically insolvent estate  
and bringing about most satisfactory re-  
sults for the heirs. A valuable and exten-  
sive business may in this way be pre-  
served through immediate cash settle-  
ments advanced by the Bank through its  
Trust Department, as executor, and the  
savings of a lifetime of labor be disposed  
of at a handsome profit for the benefi-  
ciaries of such estate.**

**THE POWER AND RELIABILITY  
OF THE SECURITY TRUST & SAV-  
INGS BANK lies not only in its millions  
of available funds, but in the experience,  
integrity, ability and reliability of the  
institution itself as expressed in and con-  
trolled by the Officers and Directors of  
the Bank.**

**THE MOST IMPORTANT DUTIES  
the Trust Department of a Bank can  
possibly be called on to perform are those  
of executor, trustee, administrator, or  
guardian under a Will.**

**YOUR WILL CONTAINS YOUR  
final instructions as to the disposition of  
all the available savings of your lifetime,  
covering their distribution and handling  
after your decease.**

**THE TRUST DEPARTMENT OF  
THE SECURITY TRUST & SAVINGS  
BANK is an ideal trustee, being author-  
ized by law to perform all the functions  
of executor, administrator, guardian,  
trustee, assignee and receiver, as well as  
those covered in private agreements. Dif-  
fering radically in these respects from  
any individual that might be selected,  
our Trust Department is always well,  
always at home, absolutely honest, has  
no exemptions, never dies, is never par-**

**About Your Will**  
Modern business and the social life and customs of the  
20th century have called into existence various modern  
agencies which play an important part in our lives, and have become so  
firmly established that they may well be looked upon as necessary  
factors in present-day affairs.

tial, not subject to political nor personal  
influence, makes no mistakes based on in-  
experience or faulty knowledge, must  
do what it is told to do first, last, and all  
the time, must keep a complete record of  
what it does, must make only reasonable  
charges, and offers you the learning, expe-  
rience and discretion not only of one  
man, but of a number of the community's  
most successful men, together with the  
experience and training of a staff in this  
Department thoroughly and exclusively  
devoting their time, attention, energies  
and abilities to only such work as this.

**THE UNCERTAINTY OF LIFE,  
whereabouts, and continued mental abili-  
ty of such individual as you may have  
selected as the executor of your Will,  
makes it advisable for you to add a pre-  
vision, or codicil (as it is legally called),  
to the effect that in the case of death, ab-  
sence, or mental inability of the individual  
executor to act, the Trust Department of  
the SECURITY TRUST & SAVINGS  
BANK shall take his place.**

**MANY ARE THE INSTANCES  
which modern history records of friends  
found unfaithful, advisers found unrelia-  
ble, relatives who proved partial, partners  
shown unworthy—and it is from that  
standpoint as well that it is advisable that  
the execution of your Will be left in the  
hands of the experienced Trust Depart-  
ment of this wisely managed Bank.**

**THE RECORDS OF THE COURTS  
abound with instances of efforts made by  
heirs to hold individual trustees responsible  
for incapacity or criminal management  
of trusts, and generally these efforts have  
been fruitless so far as lawsuits caused  
by ill-advised investments are concerned.  
Save in cases of the grossest kind, the  
Courts have generally held that the in-  
dividual trustee has "seemed to have ex-  
ercised reasonable care and diligence."**

**IT IS THE POLICY OF THIS  
Bank, in the interests of both the tes-  
tator and attorneys, to retain as counsel  
for the estate such lawyers as have  
named it as Executor in Wills drawn by  
them. It is deemed of advantage to re-  
tain the attorney familiar with the estate  
and in whom the testator reposes con-  
fidence, for the legal direction of his af-  
fairs.**

**THE FEES FOR ACTING AS  
Executor or Administrator are fixed by  
statute, and are the same for a corpora-  
tion as for an individual. The fees will,  
therefore, be the same if this institution  
acts for you, as would be allowed to an  
individual. The estate will at the same  
time be saved the expense of a bond re-  
quired of an individual, and will be af-  
forded the benefit of our experience,  
together with the protection and expert  
services offered by this strong institution,  
not ordinarily possessed by individuals  
acting in like capacities.**

**THE FEES PROVIDED BY  
STATUTE ARE AS FOLLOWS:**  
For the first \$1,000.00 ..... 7%  
For the next \$9,000.00 ..... 4%  
For the next \$90,000.00 ..... 3%  
For the next \$900,000.00 ..... 2%  
For the next \$9,000,000.00 ..... 1%  
For all above \$100,000.00 ..... 1/2 of 1%

The above advertisement is a reprint of a booklet issued by our Trust Depart-  
ment, which, owing to its great importance to the public, is given extensive  
publicity in this form.

Our Trust Department will be pleased to give you any further information.

pect. We want the harbor to be self-supporting, but it is most important from a municipal standpoint to get the business. It is not our policy to derive a large revenue so much as it is to make it of benefit to the city, and not give any shipping away from the port.

Returning to the progress which Gordon says is being made, McCullum asked him to specify the items. "What wharves?" said McCullum. "We have let the contract," replied the witness. "There is no excessive demand for them. If we build two miles of wharves a year we will keep up with any demand. We have 3740 linear feet of wharves planned; 3500 in the outer harbor. Municipal wharf No. 1 will be done by fall."

SPILT PIER O. K. The witness defended the split pier on the grounds—perhaps—that it provides added linear footage for docking purposes. He does not agree with the suggestion that not enough room has been allowed in the slip in wharf No. 1. "The engineers figure that out," he said. "This municipal pier No. 1, which is the apple of the commission's eye and the most prominent evidence there will eventually be a harbor worth while, a 2540 feet long and forty feet wide. It will be covered, and approached via the harbor boulevard accessible to motor trucks for a direct haul to town. It will cost about \$50,000 and is the first section of future municipal wharves to be added as needed, and the money is forthcoming after the fashion of sectional bookcases. "What wharves will you do with the \$2,500,000 to be provided by a new bond issue if the people approve such an issue?" asked Chairman Mueller. "Go right ahead as we are doing," replied Gordon, "building wharves and places for ships to tie up to. We will continue the furtherance of the Goodrich plan for harbor development."

The commissioner admitted that no fire protection is provided from the water side. "We have not even a harbor boat," he said. "There is no pressing need for a fire boat just yet, but I think there soon will be." Witness said that about \$10,000 is collected annually for pilotage fees, of which \$8000 goes into the general funds of the city and is not available for harbor work. The general consensus of opinion is that this should not be thus.

MORE AMMUNITION. The committee found the results of its first day's work so interesting that an adjournment was taken to 4 o'clock this afternoon, when it is expected that Chairman Gordon will be on deck once more equipped with the "figgers" in the case. Secretary Malcom of the Harbor Commission is also to be invited to be present, as is Edward Johnson, recently a member of the board, but now promoted to the king row where the dollars are administered, to wit, the Board of Public Works.

Before it gets through it is intimated that the committee will delve into quarantine matters, fortifications and other Federal details of a fully-equipped harbor.

"We feel that a good start has been made," said Chairman Mueller after the meeting.

Needed Help. EMERGENCY RATE FOR THE FRUIT.

CITRUS MEN ASK RAILROADS FOR ASSISTANCE.

Formally Request Special Sixty-Day Dispensation, Which Carriers Have Already Signified Their Willingness to Grant—Seek to Curtail Defective Shipments.

Decision to formally request the railroads for an emergency rate of 90 cents per 100 pounds on citrus shipments for a period of sixty days and to urge growers to ship only such fruit as is well matured and colored was made at the meeting of the citrus men's Emergency Committee in the office of the Citrus Protective League yesterday.

The request for the emergency rate was later made in letters to General Freight Agents Stubbs, Sloan and Barnwell of the Southern Pacific, Salt Lake and Santa Fe, respectively. In these letters it was stated that the growers are not expecting a profit on their crops, but feel that with an emergency rate they will be able to put their orchards in condition for the coming crop and also to arrange to safeguard them against frost.

The Citrus Protective League in making the request, binds itself never to use the emergency rate as an argument against the reasonableness of the growers' rate, but to be a party to any request in which the rate is used as an argument.

The local railroads have already expressed themselves as favorable to the granting of emergency rates. They will have to take up the matter with connecting roads and with the Interstate Commerce Commission, and secure their consent to the cut. It is not expected that any hitch will result, though the sixty-day limit may be lowered by agreement to thirty days. It is thought that it will take about ten days to complete the arrangements.

Plans for making the shippers and growers unit in the matter of restricting shipments to well matured and colored fruit will be discussed at the meeting of the committee set for 10 o'clock this morning. It is stated by committee members that there are 10,000 cars of marketable fruit in California today, but about 25 per cent. of a normal crop. This is fruit that, according to the members, may be placed on the market at a fair price and yet not create any prejudice against California fruit.

Figures prepared by the California Fruit Growers' Exchange show that citrus shipments during January of the past three years have not averaged over 100 cars a day. These figures will be used as an argument for the restriction of shipments until such time as the market trade in the East may create an increased demand for fruit.

The meeting yesterday was attended by all five of the committees. During the morning meeting the letter to the railroad general freight agents was drafted. This letter will probably reach the three railroads this morning. The afternoon meeting of the committee was occupied principally with the matter of restricting shipments and the discussion of plans to convince growers and shippers that it is to their interest to ship only the best of the crop.

Chairman Chapman of the committee stated last evening that he may call a mass meeting of growers and shippers Wednesday or Thursday to discuss the shipment question.

BURKE'S Dry Gin will please your guests—they like the best. It is unequalled for refined and delicate flavor.

6 Per Cent and Safety

## A Story of Interest

A young man, earning an average salary, found that he could live comfortably on \$10.00 a month less than he was making.

He did not really need that extra \$10.00 at the time, but he figured that the time might come when he would need it and need it badly.

So he decided to bring \$10.00 to us each month, where it would earn interest at the rate of 6 per cent compounded semi-annually.

In a comparatively few years that extra \$10.00-a-month had become ten hundred dollars, and over \$200.00 of this was interest.

Why don't you follow his example. Bring a few dollars to us each month and we will keep them safe for you and make them grow at the rate of 6 per cent compound interest.

## BOURGEOIS BANDIT ROBS HIGH-TONED SWEETSHOP.

A DOZEN patrons in the store of the Westlake Sweet Shop, No. 2424 West Seventh street, were witnesses last night to the most daring hold-up of recent months in the city. While the sweets around the soda fountain were occupied, and several persons stood at the counters selecting sweets in the quiet shop in the most exclusive residential section in Los Angeles, a masked bandit walked into the place, held proprietor and purchasers at bay with a leveled revolver, and looted the cash register. The amount he took is unestimated. Residents in the fashionable neighborhood had dropped into the shop of sweets and were quietly enjoying themselves, when the bandit with a white handkerchief drawn over his face, stalked into the room. He was dressed in shabby black, a decided contrast to those within.

He walked directly to Manager Norman Rifkin, the son of Mrs. S. Rifkin, owner of the place, who was standing near the cash register, and covered him with his gun, and then wheeled and covered the patrons of the place.

"Throw up your hands," he commanded, "and don't annoy me while I go through this cash register."

Rifkin stood aside while the bandit manipulated the levers of the register and cleared the drawer of all the money. Without a word he walked out, holding the store under cover of his revolver while he retired.

As he reached the street, the patrons organized themselves into a posse and gave chase. The bandit ran swiftly toward Carondelet street and turned there toward Eighth street. Residents in the neighborhood took up the chase and the community was aroused to capture the hold-up man.

The description of the man does not correspond to that of the principals in any recent hold-ups and the police believe a new gang of banditry is at work here.

to gain an entrance through the doors and windows. Only a \$5 gold piece was secured.

A gang of young men, suspected of committing a number of sneak-thief jobs on West Washington street are thought by Central Station detectives to have chopped the hole through the side of the grocery and forced entrances into other premises in that vicinity before sunrise Monday morning.

The store belongs to C. M. Adams, No. 339 West Washington street. The hole, which was of sufficient size to permit a man to crawl through, was discovered yesterday morning when Adams opened his place of business for the day.

The hardware store of F. R. Middleton, No. 2481 West Washington street, was entered by forcing a rear window and \$100 worth of goods taken.

Through the rear entrance burglars forced their way into the grocery store of J. F. Hughes, No. 2491 West Washington street. Only \$2.75 was taken.

The residence of J. Jalecki, No. 421 West Eighth street, was ransacked Sunday night, but nothing was taken.

**ONE MILLION!**

The Mark For January

We have set our mark at a sale of one million shares for January. No matter whether we raise the price of shares after this week, or let it stand at 10c per share for a few days longer, we expect to set a new record in stock selling for the present month.

**Why Not? 1913 IS TO BE A RECORD YEAR**

LOS ANGELES will grow in population and in realty transactions at a phenomenal rate in 1913.

**First National Aims High!**

Just as we broke all records for the first week in our stock sales—300,000 shares—so will we endeavor to break the record for the month. Our shares are worth more than 10c intrinsically. The quarter of a million dollar assets behind them in our subdivision (over 700 lots) in beautiful

**Laurel Canyon Heights**

makes these the choicest stock offerings of the year. The question of a raise in price of shares, to take effect next week, will be submitted to the board of directors before the close of business on Friday next—the raise to take effect the week following if agreed upon.

To be on the safe side buy today, and be sure of low price, ALSO THE PROFIT ON THE ADVANCE when it comes, as it soon will.

The hesitator, never gets anywhere—The man who makes money in stocks buys low and takes the long profit.

He banks on his judgment and acts on it.

"He who hesitates is lost."

# SOCIETY

Mrs. George C. Boldt, Jr.,

Of New York, who is the guest of her sister, Mrs. R. B. Clemens of this city.

**M**R. AND MRS. MATHEW WILLIAM HARKER of No. 1187 Crenshaw boulevard announce the engagement of their daughter, Miss Mary Emma, to Dr. David Edward Pepper of Aurora, Mo. The wedding will take place January 22, at the home of the bride, No. 1187 Crenshaw boulevard.

**From San Francisco.**  
Miss Florence H. Wachter of No. 111 West Twenty-eighth street has as her guest for a few weeks Miss Helen Matthews of San Francisco. Miss Wachter will entertain this week with an informal theater party, followed by tea at the Alexandria.

**To Tour the World.**  
Leaving January 31 the following Angelenos will spend six months touring the world: Mrs. D. F. Robertson, Mrs. C. H. Muir, Miss A. L. Horton, Miss Elizabeth Scherer, Miss Louise Barker, Miss Jennie Rief, Miss Gertrude Fleming and J. Woodward.

**Recent Party.**  
Mr. and Mrs. Sol Froman of No. 284 North Burlington avenue were recently entertained by their friends with a dinner at Hotel Alexandria and a theater party at the Mason.

**From New York.**  
Mr. and Mrs. George C. Boldt, Jr., of the Waldorf Astoria, New York, with their two daughters, Manuella and Louise, are guests of Mrs. Boldt's sister, Mrs. R. B. Clemens of No. 1878 La Salle avenue.

**Wedding Announcement.**  
Of interest to a wide circle of warm friends will be news of the quiet wedding, January 7, of Miss Josephine Bont and Harry Graul, at the home of the bride-elect's mother, Mrs. Amelia Bont of No. 222 South Bunker Hill avenue. Dean William McCormack of the Pro-Cathedral performed the ceremony in the presence of relatives only. A wedding breakfast followed and the couple left immediately after for the north. Upon their return they will reside in their own home at No. 1854 Maplewood avenue, where they will receive their friends after April 3.

**Guests Honored.**  
Mrs. C. R. Fanczy of No. 529 Ceres avenue entertained a party of friends in honor of her sister, Mrs. Bell Frazier of Great Bend, Kan. The hospitality was shared by Nina Renescent, Mrs. J. T. Morrison, Mrs. George W. Temple of Denver, Mrs. N. M. McCormack, Mrs. W. E. Davis, Mrs. W. H. Nashit, Mrs. E. F. Hart and Mrs. C. R. Fanczy.

**Afternoon Wedding.**  
At 4 o'clock Saturday afternoon a very pretty wedding was solemnized at Knox Presbyterian Church. Rev. R. C. Schoemaker officiating, when Miss Ida Eva Nugent became Mrs. Morris Pomeroy Ouderdonk. The bride-elect was gown in a blue tailored suit with hat to match. Tea was served following the service at

the home of the bride's mother, Mrs. Fanny Nugent of No. 629 West Forty-third street. My Maryland roses brightened the table, together with bows of pink satin ribbon. The young people on their honeymoon will visit New Orleans, Iberia, La and the Grand Canyon. They will be at home to friends in this city after March 1.

**Has Returned.**  
Miss Jessie Kendrick, who has been visiting friends in Berkeley and San Francisco during the holiday has returned to her home in this city. Miss Kendrick is a popular member of the Delta Gamma Sorority at Berkeley and was honored at several smart functions.

**Delightful Evening.**  
One of the large affairs of the week just passed was the ball and card party given by Mr. and Mrs. E. James Clapp at the Goldberg-Bosley assembly-rooms. About 250 guests responded to invitations and were received by the hostess and Mrs. J. Montgomery Mitchell, Mrs. Clarence William Blanchard and Mrs. Frank T. Howenstein.

**Utopia Card Club.**  
Mrs. Charles Anders entertained with a luncheon Tuesday at her home, No. 1229 Maple avenue, complimenting the members of the Utopia Card Club. Scarlet carnations adorned the table and place cards were inscribed with characteristic mottoes. After luncheon five hundred was played, and the highest score was won by Mrs. Henwick. Present were Mrs. Robert Brady, Mrs. Louise M. Bruce, Mrs. A. P. De Normandie, Mrs. Arnold Forray, Mrs. George Honts, Mrs. Melvin James, Mrs. Marie London, Mrs. Ella Regwick, Mrs. George Stockwell, Mrs. D. C. Van Court and Mrs. Mary A. Wright.

**"Jinks."**  
Mrs. F. F. Prendergast, No. 520 St. Andrews place, opened her home Saturday for the College Women's Club "Jinks." College stunts were enjoyed following the luncheon, and hostesses for the occasion were Mrs. Samuel Epler, Miss Mary H. Birmingham, Miss Helen Janet Dickey, Miss Burt Kenny, Miss Nora Updike, Mrs. Randolph Hill and Mrs. Prendergast. Ninety-five guests enjoyed the afternoon.

**Musical Evening.**  
Miss Marion Brown entertained with a musical evening recently in the lobby of the New Maryton Hotel, when about fifty guests were present. Musical numbers were presented by Miss Brown, Miss Catherine Rawlins, Betty and Edna Meyer, Marguerite and Holly Roberts and readings, Betty Meyer.

**Delightful Dinner.**  
Polonaises characterized the delightful dinner party given by Mrs. Thomas McKee, Tuesday evening at her home, No. 1633 West Twenty-fourth street. The brilliant flowers embellished the table and the favors were the polonaises, and cards marking covers were adorned with the

## Cadillac

### 1913 Limousines and Coupes For Immediate Delivery

In the 1913 Cadillac limousine enclosed car refinement has reached perfection. Its graceful lines and harmonious curves are majestic in their impressiveness, wonderfully appealing in their quiet refinement and fashionable in the extreme.

The price? You would guess it at \$6000, but Cadillac integrity insists upon giving real value for the money. With the utmost in luxury, the very limit of extravagance in appointments, the Cadillac limousine costs \$3400.

Cadillacs are sold to the most discriminating. If the owners of Cadillac limousines did not buy this car they would purchase a \$5000 or \$6000 machine.

The Cadillac electric equipment of last year has been adopted by many makers of higher priced cars, but only on the 1913 Cadillac can you obtain the improved, simplified, lighter weight Delco system.

Miss Beatrice Robert of this city, fiancée of Walter Leonard, who shot and killed himself yesterday, became engaged to be married in the city of marriage and insisted right to accept other suitors.

**Tragedy.**  
**SHOOTSELF IN FIANCEE'S HOME**  
BECAUSE SHE WOULDN'T UP THE WEDDING.  
Disappointed by Delay and by looking on Going Out With O. Men, Young Benedict-elect Shot Himself Almost in Her Presence. Loved Him, She Says.

Walter Leonard, 22 years old, at the home of W. L. Christ, 745 South Union avenue, shot and killed himself yesterday afternoon because Miss Beatrice Robertson, to whom he was engaged, refused to consent to an immediate marriage. Leonard was shot in the bedroom of J. J. Robertson, brother of his sweetheart, placed in a rooming house, and the police and an ambulance was sent, but the youth was dead long before it arrived.

Miss Robertson says she quarreled with the youth on numerous occasions the last time, Sunday night, when she occasionally went out with other young men, and because she did not want to get married yet. She is 19 years old. Three weeks ago, when she took the gun away from her brother, she remained with him all night, and the next morning, Sunday, she was at the theatre with her friends. This caused her quarrel earlier in the evening with Miss Robertson. "I loved him," said Miss Robertson, "I thought I was not ready to marry. I thought I was too young. I wanted to wait. I saw him every day, and sometimes two or three times a week. He had a quick temper and was very angry at the time. He was not with others and this provoked him. When he threatened over the telephone, I thought he was crazy. I do not feel that I am to blame. A girl has no business to let herself get so crazy over her unless she is sure of her right away."

Miss Leonard, three sisters and two brothers in Indiana. He has been a student of Los Angeles seven years. Leonard's request will be held to

## Accuracy!!!

is the basic principle of the

# Remington

Adding and Subtracting

## Typewriter

(Wahl Adding Mechanism)

The machine is accurate. But this is not all. It enforces accuracy on those who use it. Likewise it admonishes to accuracy all those on whose work it affords a check.

It detects errors. It likewise prevents errors. Fewer errors are made in every office where the Remington Adding and Subtracting Typewriter is used. Why? Because every clerk knows that this machine will infallibly detect his errors and this knowledge makes him more careful in everything that he does.

Thus the machine adds accuracy to mechanical labor saving in every kind of work where writing and adding are done on the same page.

## FIVE BIG FINAL DAYS

The Bargain Gun Is Aimed and Ready to Fire at the Remaining Fragments of Prices on Men's Clothing and Furnishings.

January 18th Positively Last Day Monroe-Davis-Herington Co. May Retain Daniels Clothing Co.'s Store at 666 South Spring Street.

Hurry to their aid—aid yourself by helping them dispose of this \$70,000 worth of high-grade clothing and furnishings.

They have just received and opened \$30,000 worth of new clothing that was on the way when they were released an extension of their lease. It was too late to head it off. So after having their case before the manufacturers, who readily saw their desperate situation, being thrown out of quarters with no place to go, a heavy discount was made on bill of sale.

This helped some, but it helped more to hurry to buy if this stock is cleaned up by Saturday night. The final days will be the biggest in bargain giving events in the history of clothing sales.

Don't you be the one to stay away and lose out. This is the final clearance at these bargains. At the close of business, January 18th, the Monroe-Davis-Herington Co. must turn the store, 666 South Spring St., back to the Daniels Clothing Co.

Read the prices below for an idea of what real bargains are offered:

Men's \$15 Suits, \$5.95; \$15 Suits, \$4.85; \$25 Suits, \$8.75; \$27.50 Suits, \$9.65; \$30 Suits, \$10.50, and \$35 Suits, \$12.65. Men's \$15 Cravenette Overcoats, \$6.45; \$18 and \$20 Cravenette Overcoats, \$7.35; \$22.50 Cravenette Overcoats, \$8.75; \$25 and \$30 Cravenette Overcoats, \$10; \$35 Cravenette Overcoats, \$12.95.

Men's Pants, \$2 values for \$1.45; \$5.40 values, \$3.25; \$2.50 pants, \$1.15, and \$2.00 Corduroy Pants, special at \$1.35. Men's 75c Work and Golf Shirts for 25c; \$1.50 Shirts in silk and madras, with or without collars, 69c; \$3 Shirts, all the best materials (madras, percales, etc.) cuffs attached, some shirts or closed front, 85c; \$1.50 pongee silk shirts, detached collar to match, 75c; about \$1000 of the newest and best styles that have been selling at 60c, 75c and 85c are now going at 25c.

Six thousand garments of Underwear, 25c, 30c and 60c values, all at the one price, 25c; 75c nainsook Athletic Undershirt for 25c; 75c ribbed medium-weight Underwear, 39c; \$1.25 values natural wool at 49c; \$1.50 Cooper's spring needle ribbed Underwear, 60c; men's 50c Poronkitt fine Underwear, 25c; \$1.50 ribbed sweater neck Underwear, 60c; men's 35c mesh Underwear, 25c.

A large assortment of Neckwear—60c and 75c values for 15c, and \$1 values for 25c. Union Suits, \$2 values at 90c; \$3 values, \$1.25; \$4 fine Union

Suits at \$1.75; \$5 Union Suits at \$2.35; men's \$1.50 Union Suits, ribbed or mesh, big values at 60c, and \$1 nainsook Union Suits for 49c. Nightshirts, \$1 values at 49c; \$1.50 values at 75c; pajamas and nightshirts, \$3 values at 95c; \$2.50 grade Pajamas and Nightshirts at \$1.25 and 95c; pongee silk Nightshirts and Pajamas at \$1.45.

Men's Hats, all the latest and most fashionable shapes; \$1 grade fine Hats, special now only 49c; \$2 hat values, including \$2 Imperial Hats, 98c; \$2.50 and \$4 Hats, \$1.75; \$5 Hats, including new English models and John B. Stetson's, \$2.45; 50c Caps, 15c. Men's Hosiery—thousands of pairs—white feet Hose and plain black and tans; 15c and 30c kind at \$1.35; 25c Hose, plain or fancy colors, 12 1/2c; 25c Silk Hose, 15c.

Best selection of Boys' Suits in the city; \$2.50 values at 95c; \$2.50 values at \$1.60; \$5 values at \$2.35, and \$10 boys' well-made Suits at \$4.35; 50 boys' Overcoats, \$10, \$12.50, \$15 values, \$4.95.

Then, there are many miscellaneous articles, as follows: 25c Suspenders, 10c; 35c Suspenders, 15c; 50c Suspenders, 25c; Handkerchiefs, branded and marked 12 1/2c by manufacturer, 5c; 10c Arm Bands, 5c; men's 25c Garters, 15c, and numerous other articles at less than cost.

Open to 5 p. m. daily; Saturday, 11 p. m.—Advertisement.

## MANY CHANGES TO BE ASKED IN GAME LAWS.

THE Great Game and Fish Protective Association is scheduled to have a meeting in Sacramento and the chances are that its deliberations will have very much to do with the game and fish laws that are to govern the hunters in this State for the coming year. The southern division has sent a representative to attend the meeting.

Just how the hunters and fishermen will fare at the hands of the Legislature is not known, but the California "statesmen" do some very strange things sometimes, but as the Great Game Association has the reputed backing of the State Game and Fish Commission, whatever it says will probably have great weight with the legislators.

All the hunters and fishermen in the State will doubtless have many recommendations to make in the game laws, but without doubt, there will be many put through.

Some of the hunters want shorter open seasons for deer, duck and quail, and, in fact, all wild game animals and fish, while others want the bag limit reduced. However, it is no easy matter to satisfy everyone, inasmuch as the "seasons" can never really be

Something Wrong.

## DUCK HUNTERS REPORT POOR LOCAL CONDITIONS.

LOCAL duck hunters report very poor luck on many of the clubs last Sunday, and do not look for any better conditions until a big storm up north shall drive the birds south. A few of the members of the various clubs shot the limit last Sunday, but the sport on the whole was indifferent at best.

Some of the boys were so disgusted that they refused to report what was done on their clubs, while some of the regulars have had such bad luck recently that they have changed their shooting day.

The Hixby reported the best luck of any club last Sunday, for all of the boys who went down got the limit before noon. These were Jim and Jack Jeffries, Ed Hoppestead, J. Lloyd, Johnny Powers and Clarence Berry, and they had principally spoonies and teal, with a few sprig. This club has turned out many limits this winter, and the shooting has been uniformly good ever since the season opened.

Down on the Center the Saturday squad had poor luck and there was little doing. V. W. Guerin got eight; Al Schmitz, a dozen, and Bert West out ten.

The Recreation squad had a little better luck, for Dave Llewellyn got the limit and he was the only man that did. S. W. Trout was next, with men with sixteen, but the four of five others present did not do so well. Everyone was kicking about the poor rights.

The Farmers' Club, a new organization, near the Dixie club, had only ordinary sport on Sunday. In fact, the boys had what they called poor shooting for of the six men out, 75

birds was the total number killed. These were mostly spoonies and teal, and there were but a very few sprig. The Westmore had only fair shooting on Saturday. Billy Cline, Billy Snyder, Paul Blair, B. G. Adams and Sellover got from ten to twenty each, but none of them made any records in the shooting line.

Bernal Dyre and R. J. Schiffman are to shoot at the Gadsden today, and in company with Bowers and Hagerty are to go to San Diego next week on a goose-hunting expedition.

## TENNIS VETERANS STILL ON TOP.

The first round of the tournament play of the Southern California Tennis League showed that the veterans still hold the whip hand over the youngsters, but it also showed the tremendous interest which there is in the tennis game this year. Although it is still very early for tennis and many of the teams have not yet started practice there were only about six matches out of forty which were cancelled.

Plans were completed last night by the management of the meet for massive bleachers to be erected on the west side of the field. A strip of land 248 feet wide and 1644 feet long will be rolled and sprinkled, thus making the stage for America's largest aerial production.

SOUTHPAW GOLF.

Frank Dillon, the ball player, and A. T. Jergins, the real estate man, are to play a match game of golf at the San Gabriel club on Wednesday. Both are left-handed and they are to play for the southpaw championship of the club. It will be at eighteen holes.

## LAST OFFER 20-CENT RATE

At a logical juncture comes HIBERNIAN HOME BUILDERS' first share-price advance, to 22 1/2 cents, Jan. 20.

Steady restraint on the part of our directors has prevented a price rise until developed property values and an active building program have made inevitable the first increase.

Only seven days remain during which you can buy shares in this unrivaled investment at the 20-cent rate.

By prompt purchase you will share in the 12 1/2 per cent profit on par, which will be added to all investments, Jan. 20.

This era of increase is coincident with an era of construction activity on our building tract, on 84th Place near Main and Moneta.

Our architect, A. H. Stibolt, well known throughout California as the designer of Loma City and Planada, is now at work on five modern 6-room bungalows.

These attractive residences are already in demand and will be sold before finished. Equities in our shares can be exchanged for equities in these houses.

## SHARES NOW 20 CENTS

\$ 1.00 monthly buys 100 shares, cost \$ 20.00  
\$ 2.00 monthly buys 200 shares, cost \$ 40.00  
\$ 5.00 monthly buys 500 shares, cost \$ 100.00  
\$10.00 monthly buys 1000 shares, cost \$ 200.00  
\$15.00 monthly buys 1500 shares, cost \$ 300.00  
\$20.00 monthly buys 2000 shares, cost \$ 400.00  
\$25.00 monthly buys 2500 shares, cost \$ 500.00  
\$50.00 monthly buys 5000 shares, cost \$1000.00

Our Guarantee Fund, already larger than any similar local fund at corresponding date, is a special attraction for careful investors.

There is no protective fund like this. It grows by automatic accretions; is backed by our shareholders and is under independent management.

This fund stands behind the small investor. It means your money back up to 10,000 shares.

Invest in HIBERNIAN HOME BUILDERS' shares and take the turn on the road to prosperity. Buying at 20 cents you get latent values, which our building program will force steadily upward.

Cut out the coupon and come in at once. Our office staff awaits your convenience every night till Jan. 20 up to 9 p. m.

One dollar monthly will buy 100 shares. Pay cash if you like. Use the coupon for inquiry.

Inform yourself regarding the merits of our security by reading the Second Edition of "THE VISION," a booklet of surpassing interest to investors.

Send me (without charge) "THE VISION" (Second Edition.)

## New Auto Law Planned.

(Continued from First Page.)

mobiles of less than twenty horse power, \$1; for automobiles of twenty horse power, and over, but less than thirty horse power, \$18; for automobiles of thirty horse power and above, but less than forty horse power, \$18; for automobiles of forty horse power and above, but less than fifty horse power, \$20; for automobiles of fifty horse power and above, but less than sixty horse power, \$25; for automobiles of sixty horse power and above, \$30.

Motor vehicles of non-residents of California are permitted to be operated for sixty days under certain restrictions without payment of registration fees.

## ANNUAL LICENSES.

All operators are required to take out licenses annually. No license can be issued to persons under 16 years of age. If special speed regulations are approved the roads must be posted.

It is also provided that under certain restrictions and regulations, permits may be issued to persons for hill climbing or other contests during specified times and upon specified parts of the highways.

An attempt has been made in the act to have "the punishment fit the crime."

## GARAGE RECORDS.

Cases may be put on file by the courts and for first violations of the act the penalties are moderate; in extreme cases punishments are severe. Reckless operation is dealt with most severely.

The law specifies that proper garage records shall be kept of all machines entering and leaving a garage. The commission may make and promulgate rules and regulations with the Governor's approval when the Legislature is not in session, governing the use and operation of motor vehicles in all particulars, but it will have no power to regulate speeds.

The law is made to take effect on the first day of January, 1914.

## HOLMES SAYS IT'S EASY TO CONQUER.

"Nothing to it," said Harry Holmes yesterday after he had qualified for an aviator's pilot license in order to enter the Owensmouth International Aviation Meet, "all that you have to do is simply twist the wheel and the plane does the rest. This is the fifth different biplane I have flown in and one is just as easy as another."

The first round of the tournament play of the Southern California Tennis League showed that the veterans still hold the whip hand over the youngsters, but it also showed the tremendous interest which there is in the tennis game this year.

Although it is still very early for tennis and many of the teams have not yet started practice there were only about six matches out of forty which were cancelled.

# "Self-Starting Gas Ranges"

## JUST PRESS THE BUTTON

The ever increasing popularity of the "New Idea" gas range is founded on true merit.

Beauty of design, efficiency of construction, superior quality of materials used, and their style of finish, is due this great popularity.

The Spit-Fire Gas Lighter lights any of the top burners instantly, with just a slight push of the valve button.

Four of the latest patterns of the "New Idea" Cabinet Gas Ranges; also showing the self-starting burners.

See them, they are the greatest that man can build.

## Other Special Features of the "New Idea" Gas Range

"Non-Rustible" Ovens and Broilers  
"Porcelain" Lined Backs  
"Porcelain" Broiler Pans  
"Porcelain" Clean-Out Trays  
"Baked Enamel" on Planish Steel  
"Direct Action" Burners

The "New Idea" Gas Range will Boil or Bake in one-third less time than any other range made. Figure the saving.

Most Reliable and Best Known Home Furnishing House in California

### ARIZONA TOWNS KEEN RIVALS.

Globe Newspaper to Remove to Miami.

Bridge Across Gila River Greatly Needed.

Electric Road Franchise Is Approved.

(Special Correspondence of The Times.)  
GLOBE (Ariz.) Jan. 11.—The keenest of rivalry has started between the towns of Globe and Miami, the latter, twelve miles distant, no longer considering itself a suburb of this place. The feeling has been intensified during the past week by the announcement that the Daily Silver Belt plant is to be moved to Miami. For the belt is one of the principal publications of Globe, founded in 1878 by the revered A. H. Hackney, one of the pioneer editors of the Southwest. The paper now is owned by Cleve Van Dyke, a Miami mining man, who has announced his belief that Miami is to become the leading town of this section, based upon mining operations which will return an income of \$9,000,000 a year, mainly through the concentrating mills of the Miami and Inspiration Copper companies. To take the place of the Belt here will be started a paper under the management of James H. Kirby, who has been backed by local business men in the purchase of the plant of a daily journal that died here last year. In the meantime the Belt is suffering a sort of business boycott.

**HIGHWAY A BENEFIT.**  
Of material benefit to the highway connecting Globe with the towns of Southeastern Arizona will be a bridge across the Gila River at San Carlos, for which appropriation of \$65,000 has been made by the Interior Department, on the basis of the value of such a structure to the Apache Indians of the San Carlos Reservation. The business men of Springerville have raised \$1000 to be expended in improvement of the Ocean-to-ocean highway through their town, in the direction of Ft. Apache. During the past three months automobiles and tourist autos are reported to have passed Springerville.

There is some authority for the belief that the Miami section is infected with a head of bugs. Two of them held up Night Foreman Harry Swanson of the Inspiration mines last Monday night, but were foiled in their attempt at robbery by the opportune help given by a miner and his wife. Swanson reported the case to the authorities, but since has been warning, halting the circulation of Guillermo Smith, alleged to have been one of his assailants.

**HANDS ROB SALOON.**  
Saturday night a saloon at Miami was dramatically robbed by two masked bandits, who realized only \$25 in cash through their exploit. The next morning in the snow was found two fresh tracks, which were followed to a mountain ranch, where the culprits were found and were positive-

ly identified. They are mere youths, William Jackson and Dick Benson, the latter having a string of aliases, however, and possibly a criminal record.

Marguerite Martinez, who shot and killed Luis Ortiz in a saloon row last week in Globe, has made good his escape. A Mexican arrested on suspicion at Hayden has proved to be another individual.

Walter Packard, a well-known cattleman, has been sentenced to ten years' imprisonment in the penitentiary for the killing of Wilson Hicks, whom he had suspected of friendship with his wife.

An intoxicated individual presented himself lately at the Sheriff's office and orally intimated the text of a note to the Sheriff from a mutual friend in which it was asked that the drunkard be locked up for a few days. It was explained that the applicant for cell accommodations simply couldn't resist convulsions when he got among "the boys," but otherwise was entitled to all consideration.

**FRANCHISES APPROVED.**  
Despite violent opposition from the Socialists, the franchise application of Nathan L. Abster of Boston for the building of an electric railway from Globe to Miami has been approved by a large majority of the voters of Globe.

A convict named Butler, sent into Globe on a business mission from a road-building camp in the Pinal Mountains, became intoxicated while here and sought to take out his spite of money by the cashing of a spurious check alleged to have been signed by the foreman of the camp. Butler was arrested and has been turned back to the State authorities, who have returned him to the State prison at Florence.

E. Taylor, connected with the Winkelman branch of the Gila Valley Bank and Trust Company, has been arrested at that place charged with embezzlement, the charge having been made by a surety company, though it is stated that his former employer has no desire to press the charges. His bond has been fixed at \$5000.

Last week a report told that on the 800-foot level of the Miami Company's workings were encountered the sand and boulders of an ancient river bed and that upon the edge were found a flint stone ax and other evidences of human life at a time before the ancient channel had been covered over by natural agencies a million or so years ago. A similar story was told a few years ago of the finding of an ancient hearth at the bottom of a 100-foot well shaft in the alluvial plain near Florence.

Charles A. Fisk, who died last week in Los Angeles, was the pioneer banker of Globe, established here in 1899.

**COYOTES SPREAD RABIES.**  
Infected by Dogs the Animals At-

tack Cows and Public Health Is Threatened.

DINUBA, Jan. 12.—That rabies has been communicated to the coyotes of this district and that these rabid animals are a serious danger to ranchers, is the statement of Dr. J. L. Zeller, who found the disease had manifested itself in a family cow belonging to G. W. Hissell. To confirm his diagnosis the brain of the animal was sent to the State laboratories and it was learned today that the State chemists found the Negri bodies which indicate the presence of the malady. As members of the Hissell family have been using milk from the animal, they have been taken to Fresno for the Pasteur treatment. It is stated that unusual conditions in the foothills have driven the coyotes into civilization, where it is believed some of the animals have been bitten by rabid dogs. Danger to stock is, therefore, acute.

### TO LEAD STYLES IN LAWMAKING?

DISTRICT ATTORNEYS TO MAKE THIS FIRST STATE.

Such, at Least, Is Good Intention of Legal Minds in Convention Here—Pass Most of First Day in Sightseeing and Enjoyment—Proposed Reforms.

If the reforms advocated by the majority of the District Attorneys of this State, holding their annual convention here, pass the Legislature in the shape of amendments to the Penal Code, California is expected to become the most advanced State in the country. Already operating on a code that embraces many of the good features of New York, it is planned to further simplify criminal jurisprudence.

While the meeting of the prosecutors from all parts of the State is not to be devoted entirely to grave debate, today and tomorrow will be devoted to serious consideration of tentative reforms. Amalgamation of the Prosecutor's office is also looked for as a result of the convention. If plans already mapped out are carried, the delegates will agree to co-operation among the county attorneys.

The first session will be held this morning at the Alexandria. As the various subjects are brought up a general discussion will be invited. This will be resumed tomorrow morning.

Among the changes in criminal law and practice, some of the Prosecutors are advocating the sending of the accused in the event a verdict of guilty is rendered.

Another is that on request of the District Attorney bail bonds be made a lien on the real estate of the sureties until they are discharged. This rule is made to apply only in felony cases.

Several delegates favor amending section 1203 of the Penal Code so that a trial court in sentencing a defendant may receive evidence showing circumstances in aggravation of the offense as well as in mitigation, as is now the case.

An important proposed amendment is to allow juries to convict a defendant on the testimony of accomplices, must be corroborated by other evidence.

Now the testimony of accomplices is not sufficient.

Another is to eliminate the necessity of placing the names of witnesses at the foot of the indictment. This gives lawyers for the defense opportunity to discover who are the State's witnesses. "I believe in changing some of our criminal practice," said Dist. Atty. E. S. Wachter of Sacramento, "but I do not believe we should try to push too many innovations through the present Legislature. I have heard much in favor of the system of allowing a jury of eight men to try criminal cases. The plan has been tried successfully in Utah. I personally favor the plan, but I believe we should try to push it through the Legislature. I fear in the latter event, most criminal lawyers would at once make the plan their client's did not have a fair trial. "We are trying to get away from the old idea of persecuting anybody. Criminals should be convicted, but on the other hand I think the Dis-

trict Attorney should help the unfortunate."

Asst. Atty.-Gen. J. C. Jones said he will not personally suggest changes, his office being created more for interpreting the laws than to suggest new ones.

He said one important change that will be advocated generally is in reference to larceny, embezzlement and obtaining money under false pretenses. Under existing law, he said, it is almost impossible to obtain convictions.

Acting as hosts to the fifty or more visitors, Capt. Fredericks and a number of his deputies met the delegates at the Alexandria yesterday morning and took them to the hotel by automobile ride. After showing the sights of this city and environs, the party was driven to the Annandale Country Club, where a delegation from the Pasadena Board of Trade and a number of lawyers of that city extended an informal greeting.

The main reason for the gathering here, Pasadena, was served. Many of the wives of the visitors enjoyed the hospitality of the Crown. After luncheon, Dist. Atty. Fredericks on behalf of this county extended a greeting to the visitors. He was followed by Dist. Atty. Wachter, president of the association.

Several others spoke.

A delightful drive through Pasadena was enjoyed. At 4 o'clock the machines whirled into Los Angeles.

Most of the visitors were guests of the District Attorney's office at the Orpheum last evening.

"We're going to show the visitors a good time," said Capt. Fredericks. "We're going to take them to the beauty spots of Southern California and make them feel we are doing some pretty tall growing down here. While there is business to be attended to, the social side will not be neglected."

Aiding Capt. Fredericks in receiving the visitors were Asst. Dist. Atty. Ford, Chief Trial Deputy Hammond, and Deputies Keetch, Veitch, Keyes, Shannon and others.

### LETTERS TO "THE TIMES"

**The Five-Cent Loaf.**  
OCEAN PARK, Jan. 12.—(To the Editor of The Times.) What is the matter with the 5-cent loaf of bread we buy nowadays? What have we done to the baker to treat us this way? In giving us a loaf of bread about the size of a large biscuit, and full of holes that resembles a Swiss cheese? Is the 5-cent loaf of bread dying out and the 10-cent ones taking its place? I rather think so.

Take the 5-cent loaf of bread two or three years ago. You could feed a family of six on same. Now, one is lucky if there is enough for two, and what is the cause of this short weight loaf?

Is it the high cost of living? It is not the price of flour, as flour has maintained a standard price ever since I can remember; there has never been a shortage of flour like other products. So the only way that I can see of freeing out the 5-cent loaf of bread is that the baker see the chance of raising the price in accord with the high cost of living. Is there any baker in Los Angeles and elsewhere that can convince the public why we should not have a loaf of bread at honest weight? Take any baker shop and go into same and ask for a loaf of bread; nine times out of ten the person will hand you a 10-cent loaf wrapped up in paper, the latter being a little device to make you think you are getting your money's worth. Why don't you ask for a 5-cent loaf of bread? Because they are so small that it makes you feel cheap to carry it out of the

shop. That's what the bakers want. They want to do away with the 5-cent price and stick you for a dime.

A 5-cent honest loaf means much, especially in large families. It means that many hungry little children who heretofore looked upon bread and butter as a necessity, now find that it is becoming a luxury. Ask any man with a large family what his baker's bill comes to. We talk about the money trust, etc., why not go after the baker's trust if one exists?

ARTHUR B. BONNER.

### REPUUDIATES WIFE'S BILL.

Furniture House Wins Judgment, But Court Stays Execution Pending Divorce Trial.

When Judge Monroe decides the divorce suit of Mrs. Alice B. Kiefer, No. 214 West Twentieth street, against Dr. H. A. Kiefer, his action will determine whether Barker will be able to collect a bill of \$225, sued for on two counts yesterday in Justice Summerfield's court.

Lace curtains and other things were brought into court and piled upon the bench. Attorney Horace S. Wilson, for the plaintiff, asserted his clients sent the goods before an order was issued by the court.

Justice Summerfield, looking better for the plaintiff, but granted a stay of execution for sixty days, or until Judge Monroe has had his say.

Mrs. Kiefer testified her husband owns property worth more than \$200,000, and that his income is \$20,000 a year. He rated himself at \$45,000, with an income of \$50,000 a month.

**THIRTEEN LOOMS LARGE.**  
This Figure Figures in Trial for Speeding—Twenty-three Marriage Licenses.

E. L. Brock was driving his thirteen-car Friday and was arrested by Officer Ledbetter for speeding. He was heard yesterday, the 13th, by Justice Summerfield. Ledbetter charged him with having driven thirty-nine miles an hour—three times thirteen.

Brock said he was doing only twenty-six—twice thirteen—thirteen less than the number charged. Justice Summerfield fined him \$25 and suspended sentence.

Clerk Sparks of the marriage license bureau announced that yesterday twenty-three licenses were issued. The license bureau is in room No. 23.

**WRECK DELAYS BUSINESS.**  
Supervisors Transact Little on Account of Having Been Detained. Exposition Progress.

Because Supervisors Pridham, Butler and Hinshaw were held up in San Diego, unable to get home after the train wreck on the Santa Fe, near Sorrento, Sunday, the board did not begin its session yesterday until after 4 o'clock in the afternoon.

The officials were in a first division of the special train carrying citizens of Sacramento Valley towns and Supervisors from various parts of the State to greet the directors of the Panama-California Exposition and inspect the grounds. They passed the point at which the wreck occurred an hour before the crash came.

They were offered the choice of sitting up all night to get the late train, or sleeping Sunday night in comfort. They chose the latter and transferred to Sorrento.

### Information About the Los Angeles Times

more than the present is  
from the same territory  
be upward of 10,000  
in Los Angeles this year,  
the estimates of J. G. H  
one of the organizers

This means that Los Ang  
benefitted to the extent of  
\$100,000 just for hotel  
meeting trips, and  
staying among the downtown  
does not include the g  
of money which these pe  
making in real estate a  
and investments, as many  
to make this a pe

"We all hear of Los Ang  
California from on  
to another," said T. E.  
an insurance operator  
who was also one of the  
on organization of this  
"In summer we hear  
about coming out  
water and in the winter ou  
filled with names of peo  
leaving or returning. Ca  
more to us than Florid  
the wealthy eastern Canadi  
to picture a tour to th  
is environs."

Mr. Dr. George W. Kerby  
of the Mount Royal Col  
1907, was enthusiastic  
of the journey. He  
president of the trip  
after the party h  
the meeting place on  
and in Spokane and Pu  
was the public speaker at  
given the travelers al

arriving in California sta  
in San Francisco, Pass  
Santa Barbara. "Nothi  
enough for us acc  
the reception," said A. McKensie  
real estate operators o  
there.

There are twelve coaches in  
train. Seven of these are sta  
a dining car, another a buff  
and there is an observation  
and there were sixteen chil  
arriving in Los Angeles, the  
various downtown hotel  
after dinner gathering  
where guests of Commerce  
were given a reception.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

## BURGLARIES ARE FREQUENT

*Pasadena's Millionaire Colony Is Becoming Nervous.*

*Replica of George Washington Home Is Assailed.*

*Fire and Water Departments Are at Loggerheads.*

PASADENA, Jan. 14.—It was reported to the police here yesterday that an attempt was made a few nights ago to burglarize the home of F. L. Loring in San Rafael Heights. This house, which is a replica of the George Washington home at Mt. Vernon, is one of the handsomest places in, or near, Pasadena. Several doors on the west side of the building show traces of a jimmy having been used, and one door was found open by the servants in the morning. So far as can be told, the burglar did not enter the house. It is believed by the Loring family that he was frightened away by a ferocious Great Dane dog that is locked in the house each night.

The report of the attempted burglary was not made to the police until yesterday, as it was thought that the thief might return and that the dog would give a warning that might result in his capture. Besides the Great Dane, which is kept in the house, there are several other fine watch dogs on the premises. Considering this, it is a wonder that the man ever succeeded in tampering with the doors.

The many burglaries that have occurred here recently have now become the talk of the town. Practically all of the houses that have been robbed have been millionaires' places and in every instance great boldness has been shown by the thief. Residents in Oak Knoll, where most of the burglaries have taken place, have that one man is responsible for all, and there are theories that he is someone who lives in that fashionable section, as he appeared to be familiar with the homes and habits of those whom he has robbed.

The attempted burglary of the Loring residence occurred only a short time after the burglary at the home of Joseph Cant, No. 1315 Oakland avenue, early last Sunday morning. And the burglary of the home of T. I. Gifford, No. 1119 South Fair Oaks avenue, South Pasadena, last Sunday evening, while only last Saturday night, Mrs. Thompson, No. 25 West California street, fired two shots at a burglar who had entered her house. She arose from a sick bed to frighten the man away from the burglary of all, in point of value of things taken, was that at the home of E. E. Hewlett, in Oak Knoll, where the loss was \$25,000.

TO USE NEW SCHOOL. It has been practically determined that the new Polytechnic High School shall be opened for use by the time of the beginning of the spring term of school, near Easter, and the Board of Education at its regular meeting last night took the preliminary steps toward procuring the equipment for it. The 1913 class will graduate at the new buildings. Practically all of the work has been completed on the administration, Jane Addams and Louis Agassiz buildings.

The joint committee representing the city and the Pasadena school district, which is to inspect the High School buildings, as a result of the recent decision of the Superior Court placing them under city inspection will probably hold its first meeting today.

SPREADS CONSTERNATION. Miss Grace Gerrish, who is producing the Campus Mouser, Pasadena society's latest offering for the benefit of charity, spread concern among the young butterflies of the boulevard and ballrooms at a rehearsal Saturday night by a sweeping order that only actual participants and the escorts of the young ladies may remain to view the preliminary efforts of the amateur actors and actresses.

The banishing order was caused by the suddenly appearing approval of a large audience on the appearance of various local favorites in their rehearsal of their different parts.

"Only escorts may remain," said Miss Gerrish, but to her great surprise, few of the eager throng moved, whereupon, on taking a hasty roll call to ascertain whose escort was which, she found that of the beaus assembled, eight claimed to escort Janet Beckwith, seven or more with Miss Groves, and the rest of the aggregation of beauty, there was not one who did not have at least three willing "escorts."

Although she admits that it will be a hard task to keep the boys "outside the door" when the famous beauty choruses are prancing within, Miss Gerrish said last night that in order to have the production of the "Mouser" in real professional order on the opening night, all distracting influences must be dispensed with at rehearsal.

QUARREL OVER HYDRANTS. The fire and municipal water departments have now locked horns over a question of whether the fire department shall pay rent to the water department for the fire plugs. Chief Clifford of the fire department yesterday told the City Commissioners that he will not sign the demand. The Commissioners adjourned yesterday with the question still unsettled. It is to be further considered, and perhaps then passed along to the City Council.

The Commissioners determined yesterday that the police department, having twice experimented with second-hand automobiles, should have good ones, and it will ask the Council to advertise for bids for a five-passenger car.

The car that the police department now uses is out of commission, having collided with a street car on New Year's morning.

Considering that the water department uses a number of cars, it is not improbable that the City Council will soon build a municipal garage in which all of the cars used by the city will be kept. The plan is being discussed.

Mayor Thum and the members of the City Council spent all day yesterday.

## H. E. HUNTINGTON AND BILLBOARDS.

SOUTH PASADENA, Jan. 13.—Henry E. Huntington has joined the war against the billboard nuisance, and has informed members of the Pasadena Board of Trade that he will refuse to renew the leases which allow billboards to be erected on land which he owns along the Short Line. This information has been received with much favor, especially as the Shakespeare Club and other organizations, which in conjunction with the Pasadena Board of Trade and the San Gabriel Valley Inter-City Commission, are working for the removal of billboards. Mr. Huntington owns and controls considerable property along Huntington drive in this city, and stated that he would be glad to see them removed.

This matter is to be kept prominently to the front by the various organizations which are a unit in declaring that the war against unsightly billboards will be carried on until success is won.

day reading the proposed new building ordinance, which will probably be enacted on first reading by the Council today.

CITY BRIEFS. D. B. Plumer, manager of the Hotel Green in the winter, and of the Profile House in New Hampshire in the summer, has been commissioned to get out the plans and arrange for the construction of a magnificent new hotel that is to be erected at Spring Lake, N. J. It is to be one of the leading resort hotels on the Atlantic Coast.

The Pasadena Music and Art Association is making plans to hold in this city this month an exhibit of the paintings of California artists.

The student body of the Pasadena High School on the 17th inst. is to vote on whether it shall assume the commission form of government, similar to that which the city is to assume next spring. There is a decided difference of opinion among the pupils, who are manifesting much interest in the unique undertaking.

Charles Coninsky of Chicago is expected to arrive in the city in a few days to arrange for a visit here of the White Sox baseball team. The players will occupy a bungalow at the Hotel Maryland. They will come in divisions, each division remaining about two weeks.

The annual meeting of the Pasadena Young Men's Christian Association, at which time directors to serve for the coming year will be elected, will be held at the association building next Tuesday night.

ALL FOR SALE AND FEW OFFERS.

Rumors of Coalition Between Pacific Electric and Aleck Fraser Are Said to Be Groundless.

OCEAN PARK, Jan. 13.—Persistent street talk that Alexander R. Fraser, founder of Ocean Park, would soon commence work on his pier site and would open the Ocean Park bathhouse, drew from Earl Fraser, his son, a denial that such action was contemplated. Earl Fraser was asked whether it was true that negotiations had been entered into by his father and himself with the Pacific Electric Railway looking to the furnishing of electric power to light a bigger and better pier, which was soon to be built. "I know of no such arrangement," said the younger Fraser. "Things were at the same stage as they were when father announced his retirement from building in Ocean Park some months ago. Everything is for sale, with few offers."

W. G. Loomis, president of the "Sagar-Loomis & Company, Investment Brokers of San Francisco, is at the Van Nuys while here on business.

A. H. Douillard, Jr., general manager of the California Paper & Board Mills is a guest at the same hotel and is registered from San Francisco. H. H. Sprague and wife are occupying a suite at the hotel. Sprague is a manufacturer of Bridgeport, Ct.

The break was caused by the removal by Superintendent Nellis of the entire party to the school and to place a Miss Paulsell in charge.

Concerning the escape and the reasons therefor, Nellis said: "Since Mrs. Thompson resigned from the girls' school some months ago that position has been with the other officers alone. I have been looking for some one to fill the vacancy and decided on Miss Jeanette Paulsell of San Francisco, who has had a great deal of experience in similar work with girls."

"Miss Paulsell arrived and took charge this morning. It was when I visited the girls' school this morning to see that Miss Paulsell was properly installed in her new office I found the inmates of the school in a state of hysteria and excitement, more than a score of them at large. I believe the conditions were due to the appointment of a new matron, but I probably know for a certainty this evening."

In concluding the interview the superintendent remarked that he scarcely wondered that the girls who escaped longed for a tramp in the open after being fenced in for such a length of time.

Fourteen of the girls armed themselves with timbers used to prop the limbs of overloaded fruit trees and stopped Boyd McGee, a rancher, who was passing in a touring car. They demanded that he convey them to Los Angeles. He agreed and when they piled into the car he conveyed them to the school and collected \$250 for his daring capture.

Superintendent Nellis feared another outbreak tonight and secured two dozen extra guards from Los Angeles. His action was considered as a manifestation of doubt as to the loyalty of the regular guards, and caused considerable comment.

Through which sixty-five girls escaped from the Whittier Reform School yesterday. All who did not voluntarily surrender were recaptured. The outbreak was caused by the discharge of a matron and the attempt of her successor to take charge.

## SLOW COUNT OF BALLOTS.

*Long Beach Awaits Result With Bated Breath.*

*Indications Are that Prohibits Have Carried City.*

*Drys Lead by Two Hundred Votes at Midnight.*

LONG BEACH, Jan. 13.—Long Beach has been busy today with an election, and in the interest thereof all else has been forgotten. Though ostensibly an election to vote upon some thirty amendments to the city charter, the ever troublesome liquor question bobbed up early in the campaign and in the ensuing fight among the prohibitionists and temperance people the remainder of the amendments were practically forgotten and two-thirds of the votes polled today practically for the prohibition issue in the problem of allowing Hotel Virginia to sell liquor with meals or allow 5000 homes in the city to give away booze. There are 12,775 votes in the city and 5700 were polled, the largest vote in the history of the city.

Both sides worked like Trojans, and although there were many hot discussions at the polls, no blood was shed and tomorrow the two opposing factions will again be business partners in the development of Long Beach.

There are thirty amendments to be counted and the diverse opinion of voters will make the counting long and tedious and it is doubtful if there will be any definite returns before morning. The main issue is the liquor question and tonight the prohibitionists are claiming that they have carried the proposition of absolute prohibition by from 700 to 1200 votes. The more liberal element, while not claiming victory, are satisfied with their day's campaign and hopeful of the result.

At midnight 1453 votes had been counted, and of these 954 were for absolute prohibition and 705 were for the more liberal form of regulation. While this is not conclusive it indicates that sentiment in the city is not favorable to big hotel enterprises.

Detective O'Rourke went to Los Angeles this morning and recovered from the Los Angeles police department a revolver stolen from George Necece a year ago and a watch belonging to R. H. Belden. Both articles were recovered in Los Angeles.

A. L. Haley, residing at the York-Spring Hotel, collided this afternoon at State and American avenues with a two-horse team belonging to F. A. Speck. The wagon was wrecked and the horses injured, but Haley, who was working at a defective clutch, acknowledged his liability and will make good all damages.

The wheel captured last week by Capt. John Loop is on exhibition at the city docks and today was seen by 1004 people. Capt. Loop thinks he will be able to keep the invention a week before it becomes so ripe as to be a public nuisance.

Mrs. Clara Whittegre, aged 50 years, was run down by an automobile this afternoon and had one rib broken. Mrs. Whittegre was crossing American avenue when an auto driven by a Mrs. A. L. Hamilton rounded the corner and struck her a glancing blow. After this Mrs. Hamilton lost control of her machine and it crashed into another owned by R. L. Bieby, slightly wrecking both machines.

A branch of the McKinley Home near Gardena has been established in Long Beach at No. 445 Almond avenue. It is a semi-charitable institution and in charge of Mrs. S. M. Gardiner.

W. G. Loomis, president of the "Sagar-Loomis & Company, Investment Brokers of San Francisco, is at the Van Nuys while here on business.

A. H. Douillard, Jr., general manager of the California Paper & Board Mills is a guest at the same hotel and is registered from San Francisco. H. H. Sprague and wife are occupying a suite at the hotel. Sprague is a manufacturer of Bridgeport, Ct.

Midwinter Number  
To Friends in the East

This great special edition, which is Southern California's message to the world, recites the story of the sensational unfoldment of metropolitan Los Angeles, details golden opportunities in innumerable fields of endeavor for broad-winners and capitalists, and dwells at length upon the incomparable climatic and scenic attractions of Southern California.

Copies wrapped for mailing 10 cents each. With postage 15 cents. Advertising rates on request. Phone Main AS200. Home 10391. Address The Times, New Times Building.

Nearly 200 pages of concise succinct, encyclopaedic, reliable information concerning California. Issued in permanent magazine form—superbly illustrated in monochrome and color plates.

WOODMAN SPARE THAT TREE!  
Native Sons and Pioneers Combine to Prevent Further Destruction of Beauties in Parks.

Aroused by what is termed the wanton destruction of typical California trees, especially palms in the city parks, a meeting was held yesterday by committees from Los Angeles county pioneer societies, associated parlor of Native Sons of the Golden West, and the County Horticultural Association to plan a move to prevent the further despoiling of these Southern glories here.

The meeting was held in Native Sons headquarters, No. 244 Wilcox building, and out of it grew a Park Protective Committee. All organizations in Los Angeles in sympathy with the movement will be asked to appoint committees to meet with this committee in the Wilcox building room at 1 o'clock next Saturday afternoon.

Herman C. Lichtenberger, Past Grand President of the N.S.G.W., was elected chairman, and John J. Jones, representing the pioneers and the horticultural association, is secretary.

Recitements.  
**SWEEP FAKERS OUT OF TOWN.**  
OVER A HUNDRED CASES NOW IN PREPARATION.

Uncle Sam Unmasks His Batteries in War Against Fly-by-Night Investment Concerns—Orders Are Received from San Francisco to Push Cases to Limit.

Evidence in over 100 cases of alleged swindling by self-styled investment concerns operating throughout the state is now in process of preparation by the Federal authorities. Should it warrant such action, they will all be submitted to the new Federal grand jury upon its convening in the state of California.

Postal Inspector Webster, who has worked up the evidence in most of the cases which resulted in eighteen indictments returned last Friday and Saturday, said yesterday that he has received instructions from his department chief, Inspector Hall, in San Francisco, to proceed vigorously in bringing to justice every violator of the postal laws.

Webster declares that Los Angeles has become a sort of Mecca for fakers operating in all the States of the Southwest and that large fortunes have been realized by unscrupulous operators on public credulity. The schemes are of every possible variety and in almost all cases, according to Webster, their sponsors depend on bringing to justice every violator of the postal laws.

Native Sons and Pioneers Combine to Prevent Further Destruction of Beauties in Parks.

Aroused by what is termed the wanton destruction of typical California trees, especially palms in the city parks, a meeting was held yesterday by committees from Los Angeles county pioneer societies, associated parlor of Native Sons of the Golden West, and the County Horticultural Association to plan a move to prevent the further despoiling of these Southern glories here.

The meeting was held in Native Sons headquarters, No. 244 Wilcox building, and out of it grew a Park Protective Committee. All organizations in Los Angeles in sympathy with the movement will be asked to appoint committees to meet with this committee in the Wilcox building room at 1 o'clock next Saturday afternoon.

Herman C. Lichtenberger, Past Grand President of the N.S.G.W., was elected chairman, and John J. Jones, representing the pioneers and the horticultural association, is secretary.

Recitements.  
**SWEEP FAKERS OUT OF TOWN.**  
OVER A HUNDRED CASES NOW IN PREPARATION.

Uncle Sam Unmasks His Batteries in War Against Fly-by-Night Investment Concerns—Orders Are Received from San Francisco to Push Cases to Limit.

Evidence in over 100 cases of alleged swindling by self-styled investment concerns operating throughout the state is now in process of preparation by the Federal authorities. Should it warrant such action, they will all be submitted to the new Federal grand jury upon its convening in the state of California.

Postal Inspector Webster, who has worked up the evidence in most of the cases which resulted in eighteen indictments returned last Friday and Saturday, said yesterday that he has received instructions from his department chief, Inspector Hall, in San Francisco, to proceed vigorously in bringing to justice every violator of the postal laws.

Webster declares that Los Angeles has become a sort of Mecca for fakers operating in all the States of the Southwest and that large fortunes have been realized by unscrupulous operators on public credulity. The schemes are of every possible variety and in almost all cases, according to Webster, their sponsors depend on bringing to justice every violator of the postal laws.
